THE ÆTNA STILL AHEAD. IT has been tried and has never failed to give satisfaction to the purchaser. Farmers will find it to their advantage to call on the subscriber during the April court and examine the above machine. It will be on exhibition at the Court House in Huntingdon during the two weeks of court. It is a combined Machine; can be changed from a Mower to a Reaper in a few moments; can be worked with a slow team, it being higher geared than other machines and the draft being reduced to the lowest attainable point. Reaping and Mowing with the Ætna is no harder on the team than plowing one and stubble. It is believed by all who have tried it that it is the machine best adapted to the wants of the farmers in this county. It has no side draft and no weight on the horses' necks. We will also have one of the Wood Reapers and Mowers on the ground at the same time. Farmers intending to purchase machines this season will do well to examine the above machines before purchasing elsewhere. At you want is to examine the Ætna to enable you to make up your mind what machine to buy. I am the authorized agent of Messrs. Wharton & Maguire for the above machines, also for the Willoughby Spring Spring Drill. I will also have one of the famous Harpoon Hay-forks on hand, which every farmer should examine whether he needs a hook or not. Every farmer should have one. They are the best in the market. No farmer that tries one could be induced to purchase any other kind. I have the exclusive right of this county. Wharton & Maguire are my agents for the sale of the above Hay Fork. Any other person selling the above fork in Huntingdon county will be dealt with according to law in such cases. Don't forget where to call. At Wharton & Maguire's, or at the Court House during court week. THOMAS W. MONTGOMERY, apl-2m Neff's Mills, Hunt. co., Pa.

LETTER FROM THE WEST.

My old Friend Lewis: Thinking a few lines from one of your old subscribers might be read with some interest I have agreed to pen you a few items on a trip from Sacramento, Cal, to Salt Lake City.

I left Sacramento by yesterday morning's (Tuesday, May 4) train on the C. P. R. R, and could I hope to give you even a faint idea of the incidents, experiences and sensations, the changes in climate and scenery from tropical heat and luxuriant vegetation to perpetual snow and the struggle for existence on the part of the stunted shrubs along its borders, of the eight hours' trip which separates the two points named, I would attempt a description. But as I despair of success in that line I will simply advise each and all of your readers who can do so to take a trip and see for themselves, fully assured that if they take the advice they will never regret it. For pleasant scenery, contrasts from summer to winter, green hills and snowy wastes, absence of dust, &c., the present month and June will be the best time for the trip.

TRAVEL.

Five passenger cars fully loaded, every seat occupied and many standing, left Sacramento. At the Junction the rear car designed for Marysville was taken off, and the other four were still more crowded. What a contrast to the travel over this same road two years ago, when two old mud wagon coaches could haul all the passengers drawn by four old mustang horses.—"This would, a short time ago," said a fellow passenger, "have been considered a very respectable excursion train." It is not all for White Pine either, as some might think as the train leaves the depot. The increased and increasing way travel is an indication of the growth of the country and the prosperity of the road. Here and there we dropped passengers.—Many are destined for Virginia City, some for Elko, some for the front and Salt Lake, and a few bound to the Eastern States. If the stream of travel is thus large already, what will it be when the continental railroad is in full working order. The Railroad Co. is making every effort to accommodate the flood.

ON THE PLAINS.

The morning was beautiful and everything looked charming. At Rocklin the C. P. R. R. Co. have a round house built of granite almost as white as marble, which can accommodate fifty engines; it is a very handsome building. On we go up the grade.—At Ada the grade is 116 feet to the mile; the scenery is grand all the way to the summit. Along the head of Bear river and of the Yuba, one catches glimpses of pretty little valleys and nooks as well as of rocky peaks—Castle Dome, a prominent landmark for many miles, and Donner peak, looming up 8,500 feet above the level of the sea. Emigrant Gap at the head of Bear River, is the point where emigrants used to let their wagons down the mountain side by putting ropes around the trees. What a change! We now fly past at thirty miles an hour.

There are now about twenty miles of shedding constructed and all in the most thorough and substantial manner. About six miles more is all that will be required to be built, which will then extend the works over the entire snow line a distance of some forty miles.

THE TUNNELS.

Fifteen in number, are a feature of the higher portion of the road. At the summit the change from up to down grade is at once perceptible. It makes a fellow feel a little weak in the knees when he peers out and looks down the mountain so far that he has to look twice or three times before he can see half way down. And if the car should ever get off the track, I can't see anything that would stop it short of five miles, and then he would pull up in Donner Lake. You can just bet high that a young man has to keep a very stiff upper lip. When he comes off this road he thinks of the past, present and future all in two and a half seconds, by the watch.

Snow is disappearing fast, although continually in view from the train, in some places. In deep canyons it may be fifteen or twenty feet deep yet, as in the winter months it all blows off the high mountains and fills up every place level. The next place after getting off the mountains is a town called Truckee, the liveliest town that I have struck. A population of four or five thousand is claimed for it, and the figures, judging from appearances, is a moderate one. It is at this point the small freight trains brought over the heavy grades are coupled on to others and taken in tow by the engines allotted for service on the plains, and loaded trains going west are cut up into small trains for the steep grades. At this place there are some forty saw mills, many of which are now idle, owing to the demand for railroad ties being for the present supplied, but they are looking forward to the commencement of the Oregon railroad for a revival of this branch of trade. But the citizens never seem down in the mouth about anything; they most all play poker and buck at faro, hunt and fish. They never arrest a man for it is so far to take him to the county jail, and if they ever start with a man the chances are he will get away in taking a trip of 150 miles.

Left Truckee yesterday afternoon, and on our way down the river the train came very near running into a huge log, three feet in diameter and fifty feet long, that was rolled down the hill by some lumbermen, and plunged between two ties. It made things very merry for a short time. Your humble servant got on the platform, shut his eyes and let himself down an embankment of 40 feet, rolled over and over like a good size bear; when I got down I felt as loose as a gummy suck half full of broken bones; couldn't speak for ten minutes, my eyes were bulged out of my head like a toad's, after a wagon had run over it. But I am all right again, and am going down the river. We follow closely the banks of the Truckee, crossing and recrossing it until we cross it once more and then each follows it own course.

Some of the scenery after leaving Truckee city is pleasant. At Virdi we catch the last glimpse of the wooded hillsides, and nothing in the form of a tree greets you again until Independence Springs are reached, a distance of over three hundred miles—and here the nearest approach to it is a scrub cedar, which grows here and there in clumps and attains a hight of fifteen feet or so. From Verdi to Promontory Mountain, a distance of 541 miles, is a waste, thoroughly treeless as the imagination can picture. Thro' all this region sage brush is king of the vegetable kingdom.

Reno, Wadsworth, Winnemucca, Carlin and Elko, are all well built towns. The former is the liveliest place on the road by odds; everybody stops here for White Pine Silver country. On arriving at Elko I took a trip to the Silverado. On leaving Elko you have a choice of four different lines, all six horse coaches; they will trot a man out for five dollars. The mines look well as far as can be seen, but as a general thing they have not been opened enough to prove them as good as the outsiders represent. By the way I had the pleasure of meeting your old Stone Creek friend J. Curry Foster, who is one of the leading lawyers of the district.

Nothing of note happened, but I came back to Elko and started on my railroad trip once more. We travel along the route, and finally we pass in sight of Butte Mountain, where some years since the Nevada troops had a conflict with the Indians, and also of Gravel Ford, now marked but by a solitary building, noted for its massacres by the Indians not longer ago than two years. These affairs are of the past. The railroad has broken the back of Indiandom.

We followed Humboldt lake and river for nearly two hundred miles.—The river is a dull, sluggish stream; its very look is brackish and alkaline, and it is fearfully and wonderfully crooked. Ducks abound along its banks, and you can see steam from hot springs visible at several points. At Twelve Mile Canyon the scenery becomes interesting, and the palisades of the Humboldt towering perpendicularly for hundreds of feet, are equal in grandeur to those of the Gosemite falls in California.

On we went helter skelter until we got to the north end of Salt Lake, and here the grasshoppers got on the track in five divisions, 100,000 in each division, and they brought the train up to a stand still. All hands got out of the cars, and made a survey of the grasshopper forces, and were about to build the road around them, when Supt. Warner came up with five hundred Chinamen and beat the hoppers back and let the train go past. O, wasn't I glad. I then went and took a look at the Lake; I think it's fifty per cent. saltier than old Lot's wife after she turned into salt. I must close.

Yours truly, SLIM JIM.

MATRIMONIAL LOTTERY.—A short time since at a wedding in South Carolina, a young lawyer moved that one man in the company should be selected as president, that this president should be duly sworn to keep entirely secret all the communications that should be forwarded to him in his official department that night, that each unmarried gentleman and lady should write his or her name on a piece of paper, and under it place the name of the person they wished to marry, then hand it to the president for inspection, and if any gentleman and lady had reciprocally chosen each other the president was to inform each of the result, and those who had not been reciprocal in their choice were to be kept entirely secret. After the appointment of the president, communications were accordingly handed up to the chair, and it was found that twelve young ladies and gentlemen had reciprocal choices, and eleven of the twelve matches were solemnized.

☞ A talented young African, of the boot-black persuasion, while dancing like St. Vitus over a customer's boots the other day, observed a neighbor poring wisely over a newspaper, whereupon he addressed him thus:—"Julius, what de debel you lookin' at dat paper fur? You can't read." "Go 'way, fellah!" replied the other, indignantly; "guess I can read. I'se big 'nuff fur dat." "Big 'nuff!" retorted the first one, scornfully. "Dat ain't nuffin. A cow's big 'nuff to cotch a mice, but she can't do it."

The Indian Policy of the Administration.

DEAR SIR:—Will you please find room in the *Globe*, for the following, taken from the Helena *Herald*, published at Helena, Montana Territory? Major Cullen, the writer, was Superintendent of Indiana affairs for Minnesota, during the administration of Mr. Buchanan, and was subsequently appointed to an Indian agency by President Johnson, which position he will continue to hold until released by a General of the Army appointed for that purpose. Anything in regard to Indian affairs from the pen of the Major cannot fail to be interesting to his old friends in Huntingdon and Mifflin counties.

Very Respectfully, F. B. W.

We gladly publish to-day the following communication from Major W. J. Cullen, upon the subject of the Indian policy of the present administration. The Major is well qualified, from his years and experience, to pass upon this matter, and it is gratifying to see that he entertains and expresses such fair and liberal views in that regard. It is well known that the Major was an applicant for the Indian Superintendency of Montana and Idaho, and that he was supported by very powerful influence; and it is also well known that he encountered the opposition of the *Herald* on political grounds. In view of all these circumstances, and his personal disappointment resulting from the sweeping change in the Indian policy of the Administration, the high-minded tone of the Major's letter, subjoined, and the moderate, liberal spirit of the same are matters worthy of all praise:

HELENA, M. T., May 29, 1869.

To the Editors of the Herald:—In your issue of this date I find an article drawing the outlines of the Indian policy of the present Administration, regarding which I desire to offer my own views, being probably as familiar with the subject in question as any other in Montana. While personally perhaps the radical changes noted have resulted in disappointment to myself, yet I must candidly confess that I believe the policy to be a good and wise one, for the following reasons:

1st. In point of economy, it will save the Government one hundred and twenty-five thousand dollars per annum in salaries.

2d. The Indian Department seems to have become so obnoxious to Congress that it is almost impossible to get the necessary appropriations to carry out, in good faith, the treaty stipulations existing with the various Indian tribes. The War Department, whether deservedly so or not, is more popular, and little difficulty upon this score is to be apprehended.

3d Army officers being appointed for life, or during good behavior, and desiring promotion, have greater incentives to deal fairly, and less inducement to defraud either the Government or the Indians than have civil officers. Again, should the military officer be guilty of any offence of that character, the punishment would be speedier and more certain, as he would be dealt with by a court-martial.

Then officers of course are in the same category with other political officers, and, as the matter now stands, it is of no moment how well qualified for the position a man may be; how thorough his knowledge of Indian character, which can only be acquired by years of toil and study; it matters little how honest and upright he may be; how extended and varied his experience; yet with change of administration comes a change of officer, and a man now to the work is put in charge of the Indians. His office is a reward, and merely a reward, for political services rendered some party, or perhaps individual politician. With his inexperience, and often indifference, is it any wonder that the Indian war—costing the Government millions of money, to say nothing of the lives of citizens and soldiers—is the result of these injudicious changes? Military officers, having once been conversant with it, may be continued in this branch of the service for years, and should any difficulty arise, they would be at the source, understand the trouble, and it would be readily quelled.

When an outbreak occurs now, there is so much red tape to go through with that it is weeks before the military can be brought into the field, or afford the least protection to the lives or property of our citizens.

With military officers in charge the traffic in whisky may be suppressed, and the enforcement of the trade and intercourse laws becomes practicable. Bad man—that vicious and depraved class, so generally to be found loitering in and around Indian reservations—may be excluded, and thus relieve the Indians of the curse at least of that class of parasites.

In conclusion, then, let me say that I most earnestly and heartily endorse this policy. And if the officers who shall be put in charge of the various tribes employ, in the various capacities of farmer, school teacher, blacksmith, carpenter, etc., honest, capable men—men of family, who will take their wives into the Indian country—I shall expect to see it productive of much good, both to the citizen and to the Indian.

Very respectfully your obedient servant, W. J. CULLEN.

Is There a God?

How eloquently does Chateaubriand reply to this inquiry: There is a God! The herd of the valley, the cedars of the mountains bless him; the insects sport in his beams; the elephant salutes him with the rising orb of the day; the birds sing of Him in the foliage; the thunder proclaims him in the heavens; the ocean declares his immensity; man alone has said, "There is no God."—Unite in thought at the same instant the most beautiful objects in nature; suppose you see at once all the hours of the day and all the seasons of the year; a morning of Spring, and a morning of Autumn; a night bespangled with stars and a night covered with clouds; meadows enameled with flowers and forests hoary with snows; fields gilded by tint of autumn; then alone you will have a just conception of the universe. While you are gazing on that sun which is plunging under the vault of the west, another observer admires him emerging from the gilded gates of the east. By what inconceivable magic does that star, which sinking fatigued and burning, in the shade of evening, reappear at the same instant, fresh and humid with the dews of the morning? At every instant of the day that glorious orb is at once rising resplendent at noonday, and setting in the west, or rather our senses deceive us, there is properly speaking, no east, west or south in the world. Everything reduces itself to a single point, from whence the king of the day sends forth a triple light in one substance. The bright splendor is perhaps that which nature can present that is most beautiful; for while it gives us an idea of the perpetual magnificence and resistless power of God, it exhibits at the same time a shining image of the glorious Trinity.

A "SMALL SIN" AMONG WOMEN.—A writer, no doubt a woman, says: One of our small sins is our small jealousy of each other. It is wrong to say that women cannot be friends together; we can—true, firm, enduring friends; but we doubt if any young woman's friendship ever existed free from jealousy. If we are not jealous about men, we are about women, and guard our rights against division with the vigilance of a house-dog guarding his domain. No man can understand the unresisting pettiness of jealousy that exists between women friends; no man knows it for his own part, and no man would submit to it from his friend. But we accept it patiently, knowing where the shoe pinches from the shape of our own feet. As wives and lovers we are perhaps the most exclusive and the most jealous women in the world. There is scarcely a woman in England who would allow her husband to admire any other woman, or to make any other a friend, or to show frank pleasure in her society. There would be pouting, or tears, or tantrums, according to individual disposition and the whole harmony of the household would be swept by the board; the practical upstart of which is that men take friends outside their homes, unknown to their respective Junos. This changes the complexion of the whole affair, and makes what would have been only a friendship, if it could have been frankly acknowledged an intrigue instead.

A CURIOUS MARRIAGE CUSTOM.—The following curious custom of the Nestorian Christians, as related by the Rev. Arthur Bogden, is commended to the serious attention of the young gentlemen and young ladies of our country, who propose matrimony: After the marriage ceremony has been performed the wedding party is taken in wagons from the church to the house of the bridegroom's parents. When the second wagon, in which the bride is seated alone, reaches the gate opening into the yard in which the house is situated, it is halted and the bridegroom's mother comes to meet it, with a baby, and three suits of baby clothes in her arms. She throws the child and the clothes into the arms of the bride, who is required to undress and dress the baby three times in the presence of her mother in law, who watches every movement as only a mother-in-law can watch a daughter-in-law. If the newly made bride does not perform the operation to the satisfaction of her severe judge, she is considered unfit for her new position, the wagon is turned around and she is taken back home for further instruction, and the poor bridegroom is compelled to live in single blessedness until his wife is educated up to the proper standard.

A GOOD RULE.—A certain man, who is very rich now, was very poor when he was a boy. When asked how he got his riches, he said: "My father taught me never to play till my work was finished, and never to spend my money until I had earned it." If I had but an hour's work in a day, I must do that the first thing, and in an hour. And after this I was allowed to play, and then I could play with much more pleasure than if I had the thought of an unfinished task before my mind. I early formed the habit of doing everything in time, and it soon became easy to do so. It is to this I owe my prosperity." Let every one who reads this do likewise.

It may not indicate that intemperance is spreading, but the fact is quite evident that the ladies are all pretty high when they go into the street—on their heels.

☞ A county magistrate, being called to marry a couple, said: "I pronounce you man and wife, and may God have mercy upon your souls. Amen."

☞It is estimated that London has 75,000 beggars. America is the asylum to which they may come, providing they "pick up" work for a living.

☞General Jordan started on a filibuster expedition to Cuba, and the report is that it has so far been as highly successful as its most sanguine promoters could reasonably have expected.

☞The English press has exhausted itself on the Alabama claims and now the members of Parliament are relieving themselves of a lot of accumulated "bile," in the way of long winded speeches. Bosh! "Its all talk and no cider."

☞The citizens of the United States in the capital of Mexico, gave a dinner on the 5th to Minister Rosecrans. A Mexican journal calls Mr. Nelson, the new American Minister, a ferocious man, sent by President Grant to create trouble in the country.

☞The Florida Legislature ratified the XVth amendment last Wednesday, by a vote of 26 to 13 in the House, and 13 to 8 in the Senate. This makes the twenty-fourth State, including Indiana that has ratified the amendment. Three more are required before it becomes a law.

☞The Lewistown *Gazette* don't like ovations such as that given to Gov. Curtin at Philadelphia.

Would not one of the many speeches made on that occasion have been as well received by the *Gazette* readers as the lengthy account of the outrage on the negro woman at Harrisburg? The ovation wasn't news, perhaps.

☞The Harrisburg *State Guard* of the 15th announces its suspension until further notice, for the purpose of making business arrangements. It was a fearless out spoken journal, just such an one as should have been well patronized by the honest men of the Republican party. It was not the organ of corrupt Legislators and their coworkers throughout the State.

☞The semi centennial anniversary of the founding of St. John's Commandery, No. 4, Masonic Knights Templars, which took place in Philadelphia on Tuesday last, was a grand affair, in ceremony and show. A large number of Commanderies from all parts of the country were present. The origin of the Knights Templar is said to date back to the time of the Crusaders, when an organization of its founders was effected to keep open to Christian travelers the road leading from Joppa to Jerusalem.

☞The Grand Lodge of Good Templars of Pennsylvania, which met at Scranton last week, was the largest assemblage of the Order that has ever taken place in the State. The proceedings were of a very interesting character. The report of the several officers showing the progress of the Order throughout the State during the year were most cheering. S. B. Chase, the efficient presiding officer, was unanimously re-elected to that position. L Ellen Wright, of Lancaster, the Grand Secretary, was also re elected. She has held the office for thirteen years.

The New Registry Law Declared Unconstitutional.

In the Court at *Nisi Prius* in Philadelphia, on Saturday last, in the case of Patterson et al. vs. the various city officers, which was brought to test the constitutionality of the new Registry law, Judge Sharewood delivered an opinion declaring it unconstitutional and void. The decision was based principally upon the distinction made by the act between the rules it provides for the State at large and for the city, making elections not free and unequal in the city, opposing obstructions to the way of free and equal voting, and in other portions of the State offering facilities to that purpose.

☞The Hon. Henry J. Raymond, founder and editor of the New York *Times*, died suddenly of apoplexy, at his residence in New York, on Friday morning last. Mr. Raymond was one of the ablest, most upright and conscientious conductors of a public journal in this country. He was elected to several offices of honor and profit during his life, and always filled them with marked ability. He was a ready and forcible writer and an able and eloquent speaker. His sudden demise is a public calamity, and his place in the journalism of the country cannot be easily filled. We always regret to learn of the death of public benefactors, but they too must die, and be gathered home to their fathers, just as all other mortals.

The National Peace Jubilee.

The National Peace Jubilee at Boston during four days of last week, was an immense affair. The "Hub" was one continued scene of the most intense excitement. The popular success of the Jubilee was enormous. The chorus numbered 10,000 voices accompanied by 1000 instruments of every kind and description. The "Anvil Chorus," with all the stupendous adjuncts of guns, bells, sledge-hammers, and firemen, threw the audience into a frenzy. All Boston was wild with excitement, and it is already proposed to get up a jubilee twice as big. That it was a success to a greater extent even than 'was expected, all the reports fully concur. It was the idea of one man,—Mr. P. H. Gilmore, a Boston musician,—and will perpetuate his name for all time to come. Thousands upon thousands were in attendance, and in one day 40,000 persons were unable to gain admittance, the crowd being so enormous. The Coliseum would seat 40,000 persons, yet not the half could be accommodated. Gen. Grant was there, Admiral Farragut was there, so was George Peabody, the great English. American banker and philanthrophist, so were hundreds of other distinguished personages. There never was *such* a jubilee before. From *reading the accounts* of the special correspondents sent to the "hub" to report the proceedings, we imagine, for once these usually quiet and sedate individuals were carried away by the excitement. The "hub-bub" was too much for them and they gave way. We do not censure them, but imagine it must have been the "biggest thing out," from the letters some of them have written concerning the National Peace Jubilee.

The State Convention.

The Republican State Convention meets in Philadelphia to-day, Wednesday. A Governor and Supreme Judge are to be nominated by that Convention, and we sincerely trust that wise councils and the utmost harmony may prevail, for the deliberations of that body will be closely scanned by every citizen of this Commonwealth. We are of the opinion that the contest this Fall will be a fierce one, and it is of the most vital importance that we should place in nomination the very best men in the party, as our standard-bearers. We hope that personal interests, for once, will be laid aside, and the *best interests of the party* looked after. We cannot all have our choice, therefore it will be madness to nominate this man or that, because he has the power to be nominated. Take the most available man, no matter who he may be, so that he will give us sure and easy victory.

The names of several gentlemen will be presented to the Convention for nomination, and we sincerely hope that the gentleman selected as our candidate for Governor may be chosen for his merit alone, and not for past services or any imaginary debt that he may think the party owes to him. In speaking thus, we do not wish our remarks to be misunderstood or misconstrued. It is in general terms and for the good of the Republican party, that we counsel wise deliberations.

We will give our hearty support to the nominee of that Convention, who ever he may be, and will use every honorable means in our possession to secure his election.

☞Some of the Democratic newspapers complain bitterly that so much was done in decorating soldiers' graves recently, and wonder why something is not done to reward the surviving soldiers. That is a fair question, which they can ask themselves about as well. Why don't they help the soldier if they have offices to give in Democratic districts, and why don't they give them work when they see they need it. The "surviving soldiers" are just like other men, and as they were courageous and patriotic enough to go and fight for their country, they have enough energy to earn what they eat, *without being driven to resort to begging* for office from either Democrats or Republicans.

The hue and cry gotten up by the Democrats about the ingratitude to the soldiers, is all done for the sake of embittering them against Republican institutions, and no soldier, we think, places any reliance in the sincerity of their motives. Let Democrats show by their acts that they love the soldier, and then they will be entitled to his respect, but not until then.

☞The Philadelphia *Bulletin* speaks in the following just terms of the Hon. John Scott: "Senator John Scott was among the company assembled on Saturday evening to do honor to Gov. Curtin. Philadelphians had thus an opportunity of making his acquaintance, and of hearing him make a speech. The result gratified every one, for it proved that Pennsylvania has a Republican Senator who can make a statesmanlike speech, and not a mere tirade of personalities."

The Berks and Schuylkill *Journal*, of Reading, says of Mr. Scott, that he "was a guest at the banquet given in honor of Gov. Curtin, and made a speech on the occasion which is said to have been *the* speech of the evening." It is highly gratifying to know that Mr. Scott creates such a favorable impression wherever he goes.

A Young Lady Buried Alive.

The people of New Orleans were, on Friday last, startled by a report that a young lady had been buried alive. The Picayune says: "The young lady, upon returning from early mass on Sunday morning, was suddenly taken ill of disease of the heart, and, as was supposed at the time, was suffocated to death, owing to her unusual fleshiness. A physician, her own uncle, had attended her in her last moments, and pronounced her to be dead.

The death of this young lady in the bloom of life, at the age of twenty, caused much sympathy in the neighborhood, and her funeral, which took place on the evening of the day of her death, attracted a large concourse of people. She had died about one o'clock in the morning, and the funeral occurred at five in the evening.

The report goes on to say, that on that same evening the sexton of the graveyard, having some business to attend to in the town, left his son, of mature age, in charge of the keys, with the instruction to close the gates at the usual hour, after making his round through the cemetery, in order that no visitor might be accidentally confined inside. About dusk the sexton's son, while going his round, passing near the tomb in which the young lady had been buried scarcely an hour before, heard low, and heart rending moaning coming from behind the marble slab. Losing his self-possession, and overcome with fear, he hurriedly left the scene, and closing the main gate of the cemetery, went home, and it was not until morning that he related the circumstance to his horror-stricken family. Information of the facts was immediately sent to the bereaved family of the deceased, and workmen were soon engaged in opening the tomb and breaking open the coffin enclosing the remains of the young lady.

The spectacle was too horrible to describe. Her face and body were in a terrible state of distortion, her hair torn from the roots.

In the terrible convulsions which had proceeded her death, she had literally harrowed her beautiful face with her nails, and her clenched fists in contact with her foaming lips showed the traces of her teeth. It is unnecessary to say that life was entirely extinct.

WARNING TO OFFICE SEEKERS.—Here is one of the recorded instances of where an unsuccessful office-hunter has become insane. It is told by an Albany (N. Y.) paper:

"*Among the numerous applicants* for position in the post office was a German named Charles Saulver, a resident of the First ward, and for some time past in the employ of Lyman J. Lloyd. He is a man of family, and always regarded as a good citizen.—It seems that he had become so thoroughly impressed with the belief that his application would be granted that disappointment rendered him insane. The first intimation his wife had of a change in his mental condition was when he told her to 'wake him up early in the morning as he had to go to the post office to carry letters.' After that he would not converse with any person, not even with his wife, and remained perfectly mute. He procured his gun, went to his bedroom and barricaded the door, so as to prevent any one from entering. There he remained for several hours, when he finally fell asleep from sheer exhaustion.—Then it was that his wife procured the assistance of a few neighbors, who succeeded in effecting an entrance to the room without being heard by its occupant, who was then secured.—Physicians were summoned, who pronounced Saulver to be laboring under an aberration of mind, and upon their certificates the unfortunate disappointed office-seeker was removed to the County Insane Asylum.

Six hundred thousand dollars worth of manufacturing stock has been subscribed for a cotton mill at Columbus, Georgia, and 71 others are in process of erection at Savannah and other points in the State, for the manufacture of cotton and woolen goods. One factory at Augusta has a capital of $600,000, and last year turned out nearly 6,500,000 yards of cloth. The Arizona Cotton Factory, established in Claiborne Parish, Louisiana, since the war, is now paying a net profit of 24 per cent per annum. This income is realized on a capital of $80,000, and with a part of the machinery counted in the capital not yet at work. New Orleans is soon to have a cotton mill with 10,000 spindles.

The Governor of Arizona has presented a pike to the Central Pacific Railroad Company as Arizona's tribute to the triumph of the age. It is six inches long, three quarters of an inch thick, one and one-half long, three-quarters of an inch thick, one and one-half inches across the head, and weighs ten and one-fourth ounces. The gold and silver used are of the finest quality, and the workmanship is very creditable, and bears the following inscription:

"Ribbed with iron, clad in silver, and crowned in gold, Arizona presents her offering to the enterprize that has banded a continent and dictated a pathway to commerce. Presented by Gov. Safford."

At a meeting of the "old settlers" of St. Paul, Minn., last week, Mr. N. McLean was elected President. He was 82 years of age on the 16th of May last. He was born in 1787, went to Ohio at the age of seven years, and to St. Paul in 1849. He attended a jury trial up the Minnesota River in the early days, where the jury all consisted of half-breeds, except one white man, and there was not a pair of boots among all the jurors. He afterwards attended a jury trial when all the jurors were Indians. After the trial was concluded, the Indians treated the Judge with a supper of dog meat.

A lady arrived in San Francisco on the 28th ult., who carried through a bouquet of flowers from New York city. The editor of one of the San Francisco papers says: "One little pink, that sheds its intoxicating odor over the page on which these words are written, has the potency of a fairy wand. Three thousand miles of space, and long weeks or months of dangerous travel through a savage country, vanish before it. It realizes the dream of twenty years. The garden pink of Manhattan kisses the field poppy of Yerba Buena."

Randall Sylvester of Freedom, Me, a man 32 years old, has lain in bed for 15 years, cannot speak above a whisper, and is a mere skeleton. He dreamed one night how to make a violin, although he had never seen one made. He was supplied with timber in the rough, and such tools as he could use while lying on his back, and dug it out with an apple-corer. The instrument is very beautiful, ornamented with shells resembling pearls, and the tone is very fine. It is composed of 92 pieces, but appears like one piece till examined closely.

Rev. Henry Ward Beecher preached the sermon to the graduating class at West Point. He painted the "perfect gentleman," and pointed his moral by declaring that a true soldier ought to be the highest type of the "perfect gentleman," but arguing that there could be no perfection without the teachings of Christianity. Only the latter portion of the sermon alluded in any way to politics. He spoke of the friendship and united action during the closing hours of the war of Grant, Sherman, Sheridan, Thomas and Meade as a most remarkable evidence of the superiority of American soldiers.

NEW ADVERTISEMENTS.

COUNTY COMMISSIONER.

MESSRS. EDITORS:—I respectfully announce myself as a candidate for the office of County Commissioner of Huntingdon county, subject to the decision of the Republican County Convention. If elected, I will discharge the duties of the office with fidelity and to the best of my ability. I was born in Huntingdon county, and the first vote I ever polled was for William Henry Harrison, in 1840. In August 1862, when all was gloomy and dark and our country and union in danger, I volunteered my services in Co. I, 125th Regiment, not for large bounty or big pay, but for the good of my country. On the 17th September, 1862, while engaged, was wounded in the arm, rendering it almost useless.

BE CAREFUL WHAT MEDICINES YOU TAKE.

WHEN you are exhausted by over work of head or hand, and feel the need of something invigorating, don't drink whiskey nor any intoxicating thing, whether under the name of Bitters or otherwise. Such articles give just as much strength to your weary body and mind as the whip gives to the jaded horse, and no more. Alcoholic stimulants are injurious to Nerve-health, and are ALWAYS followed by DEPRESSING REACTION.

Dodd's Nervine & Invigorator

Is a TONIC and GENTLE STIMULANT which is NOT attended by REACTION. What it gains for you it maintains. When it refreshes body or mind, it refreshes with natural strength that comes to stay. We are not recommending teetotalism in the interest of any faction; but long and extended observation teaches us that he who resorts to the bottle for rest or recuperation will find, as he keeps at it, that he is kindling a fire in his bones which will consume like the flames of perdition. Turn from it. Take a tonic that will refresh and not destroy. Dodd's Nervine is for sale by all Druggists. Price One Dollar. See book of Certificates that accompanies each bottle. 4w

A lively political campaign is opening.—Let our friends see that no man, rich or poor, is without a copy of the *Globe*.

The residence of H. Clouse, in Hopewell township, Bedford county, was consumed by fire on Friday, the 11th inst.

At the Boston Peace Jubilee there were 104 societies, comprising 10,256 vocalists, and nearly 1100 musicians.

An infant died on the Emigrant train between here and Altoona, recently. It was interred at the latter place.

Mr. Enoch Hixon, of Emmaville, Fulton county, lost four children by diptheria, from the 25th of April to the 30th of May.

A little pugilistic affair occurred on our streets near a bark pile, on Saturday last.—No little "barking" of faces was done.

Persons holding lands should not forget that there is a law compelling them to cut down the Canada thistle on their premises.

A machine in Lancaster turns out 4,000 pressed brick per hour. We should have a machine here, as freight costs almost a cent a brick.

The Catholic congregation of this place intend holding a pic-nic at Cottage grove, on Saturday, the 3d of July. All are invited to attended.

Mr. Jonathan Diehl, of Colerain township, Bedford county, was killed recently by the falling of a piece of timber, while engaged in raising a barn.

The citizens of Morrison's Cove are still agitated on the railroad question. Why is it that people have so much to say, and yet so little done?

A daughter of Gale Heslop of Johnstown' coughed up a pin an inch and a quarter long, which lodged in some of the passages of the chest a year and a half ago.

Strawberries seven inches in circumference have been raised this year. One in Berks county is said to measure eight and one-quarter inches in circumference.

An effort was recently made by a band of gypsies to steal a child of James Thomas, residing in Lewistown. The thief was detected, and the child restored to its parents.

Candidates here and elsewhere are announcing themselves through the popular channel—the newspaper. Some will sink and others will swim on the popular tide.

A farmer named Jacob Settlemoyer was killed at Wilmore, Cambria county, last week, by a man nemed Burke, who struck him in the stomach with a heavy piece of wood.

Our subscribers will understand that the X before their names means that the term for which they subscribed has expired. They can remit amount and order the continuance of the paper.

Oley Robinson, a colored man employed as a teamster by Steel, Lytle & Steel, had his ankle sprained and was otherwise bruised by a horse falling on him, near Stone Creek hill, one day last week.

Bill heads, letter heads, and all kinds of job printing neatly executed at the *Globe* office, at moderate prices. We are prepared to fill any order from one hundred to ten thousand, "more or less."

The Methodist congregation of this place vote this evening on the question of Lay Delegation. We hope the pastors throughout the county will furnish us with the result of the vote in their several churches.

A man was in town last week, who walked half a mile, picked up stones, and did several other tricks inside of half an hour. The biggest feat in his estimation was taking away a few greenbacks given him by our people.

We had the pleasure of a visit from J. F. Brown, who has just retired for a short season as local editor of the Clarion *Democrat*, and is now rusticating at his home in the northern part of this county. Call again.

There will be a total eclipse of the sun on the 7th of August next. It will be visible throughout the United States. The eclipse will last one hour and thirty-five minutes, the middle being at 6 o'clock in the evening.

"Slim Jim," whose interesting communication from the west, appears on our first page, has our thanks for a photograph of "that old villian, Brigham Young," and also a *stereoscopic* view of the laying of the last rail on the Union Pacific Railroad.

The Norristown *Republican* says that a Mr. Shuler, sexton of the Montgomery cemetery, died from the effects of receiving into a cut on his hand, virus from the body of a child which had been dead for a length of time, and which he was re-interring.

We happened to meet Dern of the *Altoona Tribune*, at the train on Saturday evening last. He smiled gracefully, and informed us he had been on a visit to Vineyard station, near Manayunk, where we presume he was looking after his grape interests. (No italics.)

A lady in Newport, R. I., paid for a newspaper to be sent to a neighbor who had troubled her so much by borrowing it that she took this method to get rid of the nuisance. A very good idea, and we would suggest the same plan to our subscribers who are likewise bothered.

The publishers of the Reading *Journal* have purchased the office of the *Daily Times* in that city, and will hereafter conduct both papers. These gentlemen have the ability to run a first-class daily, as their weekly demonstrates, and we wish them success in their new enterprise.

There are from eighteen to twenty thousand children in Centre county between the ages of five and twenty-one years; and statistics show that not one-half of this number attend any Sabbath school. Huntingdon county needs a Sabbath School convention to find out how many of her children do not attend Sunday Schools. Will some one move in the matter?

Popular, very—the editors of town at the Good Templars' Festival. A gold pen and silver holder was voted to the most popular editor, after voting during two evenings, and until a late hour each evening. The votes were counted and the *Globe* had 38 votes, the *Journal & American* 44, and the *Monitor* 5. The *Monitor* editor was the most sensible, as his votes didn't cost him anything. We hope there will be no further attempts to swindle the editors for the fun of the thing.

Col. H. H. Gregg.

We had the pleasure a few days ago, of taking by the hand our genial, clever, whole souled friend, Col. Harry Gregg, who has been spending a few weeks with his friends in old Huntingdon. Harry is now a resident of Senaca, Newton Co., Missouri, and left us for his western home on Monday. He gave us a glowing description of the Neosho Valley, and almost persuaded us to emigrate to that garden spot of the Golden West. By the way, we have before us the plot of the town of Senaca, which Harry is the founder of, and which bids fair to become one of the most flourishing villages in that country. Although but a few months old, it already contains a population of four hundred inhabitants, with three steam powers, six stores, a church, besides the survey for a railroad has been run through the town. It is expected that the railroad will be built in less than two years, the completion of which will bring Senaca in direct communication with the east. We are glad to learn that Harry is driving a fine business, financially, and (don't say anything about it) his prospects matrimonially are none of the poorest. We wish him all the success imaginable.

Sun Stroke.

One day last week, a man was found near the canal a short distance above town, with his coat off, and his pocket book some distance from it.—Upon being approached he was found to be insensible, and waking him up he looked around in bewilderment. His pocket book was given him, but he could not explain how it was taken out of his pocket. It was thought he was waylaid and robbed, but he found no money taken from his pocket book and no marks of violence were on his person. He was engaged in loading ties, and the day being warm it is supposed he was attacked with sun-stroke, and remained insensible until discovered.

☞No other machine has so rapidly won favor in the household as Singer's new Family. They are now manufacturing 100,000 Machines per year, or at the rate of 2000 per week. This fact or result has been owing to its real merits. For further information apply at Blair's Book Store. 1t

Good Templars Festival.

The Festival held in the Castilian Garden on Tuesday and Wednesday evenings of last week, was a success. The pecuniary interests of the lodge of Good Templars for which it was held, were considerably augmented, and we hope that the Lodge will return thanks to the public by renewed endeavors to promote the cause of temperance in our borough.

The Worcester's Dictionary was voted to P. M. Lytle, Esq., and the Gold Pen and Silver Holder to Mr. Jno. A. Nash, editor of the *Journal & American*.

Temperance Lecture.

Mr. Chas. Jewett, the celebrated temperance lecturer, will lecture under the auspices of the Good Templars, in the Court House, on Thursday evening next, the 24th inst. Here is an opportunity offered to hear one of the most renowned lecturers on this subject extant, and we hope to see a full house. The lecture will be free.

Come Again.

Not long ago we announced the arrival of a fresh lot of goods at the store of Henry & Co., in this place, and this week we are again called upon to notice another nice stock, which have been selected for the summer season on which we are just entering. The public are invited to call and see the styles and ascertain the prices. 1t.

Advertising.

A distinguished authority on the subject says that the country is full of men who have got rich by advertising. In fact no man expects now to keep his business running without informing the people what he is doing and where he can be found. The people cannot afford to spend the time to hunt up places of business and trade. They have been so long accustomed to gaining that information from newspapers that they depend upon that source altogether, and govern their trade from what they learn and read at their homes and by their own firesides. A lively advertisement is a friendly talk between business men and their customers. It is a daily invitation to come and trade, and every day the readers of a local paper expect to see and hear what the merchant, the manufacturers and the tradesmen have to say. A local newspaper is a traveling agent, taking his daily round to the families of all their customers. No matter whether times are good or dull; no matter whether trade is brisk or otherwise, no business man can afford to take down his sign nor withdraw the pleasing influence of a daily chat with his customer through the newspapers. For a business man to stop advertising, would be equivalent to his saying: "I have stopped business, and ask no more favors of the people."

Something needed in every Household.

Every man's house according to *good old English law*, is "*his castle;*" but during summer time, in our country, if the castle be not guarded against flies and mosquitoes, this wonted *immunity* will avail but little against those enemies which enter when sheriff and writ cannot. The screens, manufactured by the Adjustable Window Screen *Company, 623 Market Street*, Philadelphia, are offered as a sure remedy against these annoying pests. This Company have brought out an *article which, for artistic appearance* and practical use, is unexcelled. Their Patent Screen, combined in two frames, made to slide by each other, and kept *in position by iron guides, can be readily adjusted to any window.* The screen, moreover, is in itself a handsome and ornamental piece of furniture to any *room*

We know from observation and practical tests that these screens are all that is claimed for them by the proprietors.

These goods are sold by all dealers in furniture house-furnishing goods, ect., throughout the country.—*Forney's Philadelphia Press.*

☞There is no mistake about it, Plantation Bitters will ward off Fever and Ague and all kindred diseases, if used in time. No family need suffer from this distressing complaint if they will keep Plantation Bitters in the house, and use it according to directions. The most important ingredient of this medicine is Calisaya or Peruvian Bark, which is known to be the finest and purest tonic in the vegetable kingdom. The extract of this Bark is the active principle of all the good Fever and Ague Medicines prescribed by intelligent doctors. Calisaya Bark is used extensively in the manufacture of Plantation Bitters, as well as quinine, and we dare say they owe their popularity mostly to that fact. We can recommend them.

LOCAL CORRESPONDENCE.

MESSRS. EDITORS:—The spirit of enterprise in Huntingdon borough has never been what it should be, but that is because we haven't had the men to make it so; or rather, we haven't had the men who would *think* of making it so. We think the great fault has been that individuals have engaged in such things as stores, which have accumulated in our town so fast that now we have one to every family connection and their intimate acquaintances. Had the money which has been spent to start and keep up half of the many stores in our town been spent in some Manufactory, our town would have had a larger population, and the store keepers who now complain of "dull times" would have been realizing a good per cent. from their money invested.

The Mercantile Appraiser's list mentions forty-one stores in our midst.—Two of these pay $40 license; one pays $25; two pay $20; four pay $15; three pay $12,50; six pay $10; and the balance of twenty four pay $7. Putting the whole population of our borough at 5000 and estimating the number of surrounding inhabitants who patronize our stores at 500, we have one store to every 134 inhabitants. Now at a fair per centage, each of these stores would not more than $1500 clear in one year realize if the patronage was equally divided; but the latter is not the case, and consequently, we hear the storekeepers complain of dull times. These storekeepers as we have intimated, could have realized a good per centage by this time if they had placed their money in some works. As the probability is, we will have no more stores in town until we can have a larger population, the endeavors of storekeepers, capitalists and our citizens generally should be continually used to increase our manufacturing interests, for in this lies the secret of success. We hope to see Huntingdon an active town, but that activity will not exist in starting new stores, no matter how cheap they sell.

IMPROVEMENT.

BROAD TOP, PA., June 14, 1869.

DEAR GLOBE:—I take some pleasure in communicating what digest of news that comes within my reach, but more especially on account of the interest our Broad Top folks take this season in the cultivation of the soil.

Having made an estimate of one certain crop that is put in the land this season, I am not making an overestimate when I say that five hundred bushels of seed potatoes have been planted this season. Allowing that twenty bushels plant an acre, there would be twenty-five acres planted; but out of these five hundred bushels have planted over forty acres of land. Allowing that each bushel of seed will raise twelve bushels of potatoes there would be a yield of six thousand bushels of potatoes. This is not a bad show for Broad Top mountain, and I wonder if our vallies will come up to the mark. So much for the potato crop of Broad Top. The fruit looks beautiful indeed, and I do not hesitate to say it promises to be one of the best years for fruit that I have yet witnessed on Broad Top while I have been here.

There is one neglect to which I would call the attention of the land owners of this mountain. It is the small interest they take in improving the land, or in giving it to the proper persons in the proper way. If this would be done I can assure the owners that in two years from now the uncultivated soil of Broad Top mountain would bring a yearly income of one million of dollars where now it does not bring over two thousand. As this is a matter of dollars and cents it should be well considered, and if the owners view it in a proper light and attend to it accordingly they will find it will pay them or those that will do it well; and further, I would say that if our farmers would improve and farm this land instead of going west it would pay them better, as we see several of them that had the western fever and who sold out last spring, and went west, have now returned, the reason of it being that grain fields are always far away.

A few words more concerning cultivating the soil. Last year in the fore part of July, I took a notion that I would prepare a turnip patch for the season, and accordingly set to work. I have heard Irish emigrants often mention why the Americans did not improve the land in the same manner that they were accustomed to improve it in their country. I experimented on their system, and the following is the result: I took a well edged mattock and peeled off the green sward in sods one foot and a half in length, one foot in breadth and four inches thick, and rolled it up on the ground to dry. I peeled off three rods square of this land and fenced it in. After I had it fenced, it measured forty-five feet square. When the sod was dry enough, I gathered a lot of old stumps and dry half rotten wood that was good for nothing and made four heaps of the wood, built the sods about it and then fired it. After the sods were all burned and the ashes cool, I spread it over the ground where I had taken the sod off, and plowed it with a shovel plow the first rainy day that come after I sowed the turnip seed. Mark the crop that was raised from it:—Thirty bushels of marketable turnips, some of them weighing eight pounds: The seed was sown on the 29th day of July, 1868. There are plenty of men who can testify to this statement. The whole cost of the labor, fencing, peeling, burning, and taking care of the turnips was ten dollars, and they were worth twenty dollars, or, they paid double; besides the improvement of the soil was equal to that of a coat of lime.

The original storehouse of R. Hare Powell, situated on Coal Hill, was burned on Sunday morning, the 13th inst., about half-past four o'clock.—The cause is not known.

MARRIED,

On Tuesday, June 15th, at the residence of the bride's father, by Rev. S. H. Reid, Mr. WM. E. IRWIN, to Miss SUE H, daughter of Mr. Robert Tussey, Canoe Valley, in this county.

On the 16th inst., by Rev. James C. Clarke, at his residence in Huntingdon, Mr. C. W. BUCK, of Tyrone, to Miss L. ETTA EALEY, of Huntingdon.

At the M. E. Parsonage, on the 17th inst., by Rev. R. E. Wilson, Mr. ROYER SWOOPE, to Miss ANNA NEVEL, all of Alexandria.

DIED,

In Hendorson township, on the 16th inst., ADAM RUPERT, aged 85 years and 6 months.

At his home near Ennisville, this county, on June 13, 1869, JOHN MITCHELL SMITH, eldest son of Hon. Wm. B. Smith, dec'd., aged 21 years.

The deceased was of Methodistic parentage, and was blessed with a most happy and religious training. At an early age he connected himself with the M. E. church and by his christian deportment, won the confidence and affection of all who knew him. His place in the sanctuary and sabbath school was never vacant, when it was possible for him to be present. He was regular in his attendance upon all the means of grace, and God's house was always to him a place of delight. His bible was his daily companion.—He was often found in his room knelt down, with his bible before him, studying the holy scriptures, and engaged in secret prayer.—When his health became so impaired that he was unable to lead in the family devotions in person, he was not satisfied if it was not promptly attended to by some one. His proptracted disease was of years duration; it developed itself when he was but three years old, but he learned patiently to suffer as well as faithfully to do the will of Almighty God. Amid the temptations of the evil one, taking advantage of his failing physical energies, he unswervingly trusted in God, fully resigned to do his will. At one period of his sickness he was not satisfied in regard to his future destiny, but as he approached the grave, faith and joy took the place of doubt and fear, and all clouds were dispersed and his spiritual sky became clear and bright. A few minutes before he died, while lingering in the arms of his sister, she asked him if Jesus was precious to him. He answered with a smile in his countenance, "Yes, he is precious to me," and repeated that verse, "Come unto me all ye that are weary and are heavy-laden, and I will give you rest," and he found rest in the arms of Jesus. His widowed mother, sisters and brother, are left to mourn his loss, whose soul to them was tenderness, faithfulness and love. May God multiply divine consolations to them in their bereavement, and prepare them for the reunions of heaven.

The funeral sermon was preached by the Rev. Wm. Gwynn in his usual eloquent and heartfelt manner, after which the Rev. J. M. Adair made some very appropriate, impressive and sympathising remarks. J. M. O.

HUNTINGDON, PA.

How to get a country seat cheap—take a chair into the suburbs and sit down.

Things not to be mixed—love, liquor, accounts, and your neighbor's affairs with your own.

The greener Nature the better she looks. This rule does not, however, fit when applied to human beings.

The Queen of Madagascar and several of her ministers were recently publicly baptised in the English Missionary Church.

The emigrant tide is setting strongly this way from across the water.—Lately, in one week, eight thousand persons left Liverpool for those shores.

The Presbytery of Old School, in Boston, was the first to unanimously adopt the basis of re-union of the Old and New Schools agreed upon at New York.

The Republican Convention of Richmond City and Henrico County, Virginia, nominated for the Senate one colored and two white men, and for the House one white and seven colored men.

Don't expect to be considered wise and good simply by wearing a long face and a solemn countenance. It is a trick that half the bumbugs and hypocrites in the world regularly practice.

The enormous growth of our intercourse with Europe is well evinced by the increased number of letters sent abroad. The excess this year over the figures of 1868 is upwards of half a million. Judging from the crowded state of all outward bound steamers, the number bids fair to increase in a still greater ratio.

☞ Much domestic unhappiness comes from the fact that people do not know, or do not enough recognize, the peculiarities of each other's natures.—They expect impossible things of each other. If a flaming, demonstrative nature, and a cool, undemonstrative nature come together, neither of them understanding or making allowance for the peculiarities of the other, there can scarcely fail of being unhappiness. The latter demands that the former shall keep still, and the former demands that the latter shall wake up. They are all the time actuated by cross purposes, and are at disagreement with each other.

RIDICULOUS CUSTOM.—Why is it, that when we meet acquaintances on the street, or in houses, we almost invariably pass some remark about the weather? Was there ever anything so ridiculous? Suppose it is raining; your friend has just entered with a dripping umbrella and soaked clothing. You need not tell him—"it is a damp day." If the sun shines, the lady whom you meet upon the street is aware of the fact. She came abroad because it was "a fine day," and you convey no information when you tell her of it. Such remarks are almost universal, and yet, the only use they are of seems to be to supply the lack of something to say.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgements we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

McGUIRE'S

SPANISH HAIR DRESSER

FOR PROMOTING THE GROWTH, BEAUTIFYING THE HAIR,

And rendering it dark and glossy. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The use of this oil as a hair dresser has been universal in every section of the country in the Spanish Main for centuries.—No preparation of art could give that elegant luxuriance and abundance of hair which have so often been the admiration of travelers in Spain. This oil is highly and delicately perfumed, forming an article unrivaled in excellence and upon which the Spanish people for many years have set its seal of enduring approval.

McGUIRE'S

Mexican Wild Flowers Shampoo Lotion

For removing dandruff and scurf from the head, whitening and perfuming the skin. This article is entirely different from any thing of the kind ever offered in this country and is warranted free from all poisonous substances. This valuable lotion was used by the Emperor Maximilian, and Empress Carlotta of Mexico, and universally used by Mexicans for three hundred years. As a wash for the head—it is cooling, cleansing and refreshing.—When thus used it at once relieves headache.
